PROFESSIONAL SUMMARY

By chance, I hit F12 and changed my Chrome browser's look. That sparked my coding journey. Now, I'm skilled in the full software cycle, including server work. I thrive on solving complex problems and have real projects to show for it. Ready and excited for a full-time coding career

CORE COMPETENCIES

- HTML / CSS / JavaScript
- nodejs,NPM, C# and Asp.Net Core
- Responsive web design
- React js and Bootstrap5
- RESTful APIs and JSON
- MongoDB and server administration
- Excellent spoken and written English
- Enthusiastic, quick learner, with a love for collaboration and an good problem solver.

PROFESSIONAL EXPERIENCE

Param Solutions

Backend Developer | 15/04/2024 - Present

- Utilize C# ASP.net core to design and implement robust and scalable applications that can handle high traffic loads without compromising performance.
- Levearages microservices architecture to enhance development workflow and improve team agility and speed.
- Implements CI/CD pipelines to catch errors early in the development process.

DefoPage

Frontend Developer | 01/04/2024 -15/06/2024

- Successfully translated Figma designs into fully responsive, SEO-optimized HTML pages, ensuring high performance and accessibility.
- Implemented cross-browser compatibility, delivering consistent and polished user experiences across all major web browsers and devices.

RELEVANT PROJECTS

ActiveWearCentral e-commerce shop

HTML/CSS/React/ React router
live demo : https://active-wear-central.netlify.app/

- An e-commerce store that sells fitness wear, gym equipment, and shoes.
- The store leverages the power of global state management to transfer data from parent components to child components, avoiding prop drilling.
- It also uses React Router for seamless navigation across multiple department pages.
